LUMOS Search Test PDF

This document contains specific text patterns for search testing.

Case Sensitivity Tests:

- The word 'test' appears in lowercase

- The word 'Test' appears with capital T

- The word 'TEST' appears in all caps

Word Boundary Tests:

- testing (contains 'test' but is a different word)

- test (exact word match)

- retest (contains 'test' as suffix)

Multiple Occurrences:

The word search appears here.

Another search instance appears here.

And a third search occurrence here.

Special Characters:

test@example.com

hello-world

under_score

Long text for context extraction testing:

Lorem ipsum dolor sit amet, consectetur adipiscing elit.

This sentence contains the word MATCH right here in the middle.

Sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

Line boundary testing:

First line with keyword

Second line with keyword

Third line with keyword
